

IIM-Ranchi announces revamp of its curriculum

TIMES NEWS NETWORK

Ranchi: The Indian Institute of Management, Ranchi on Thursday announced completion of the review process of its course curriculum across the undergraduate, post graduate, and doctoral programmes. The institute as a part of its strategic plan, 'IIM Ranchi@2030', undertook a detailed review of courses. The changes aim to bring the latest developments in the industry and the society to the classroom.

"Compulsory courses in the three terms of the second year have been replaced with elective courses. Students can select electives from across all study areas of the institute in all the three terms of the second year. Mid-term examinations have been made flexible to provide greater academic freedom to faculty members. This development is expected to encourage faculty members to introduce new and innovative courses which cater to industry demands," IIM said in a statement.

"Students are expected to benefit from these courses and explore new domains and create a unique niche for themselves while increasing their employability quotient at the same time," it added.
